

FREE GUIDE · FOR 340B PHARMACIES

The 340B Pharmacy's Guide to Compliant Waste Disposal.

Credit recovery plus the audit-ready records
340B compliance demands.

DEA-REGISTERED

EPA-COMPLIANT

NO CONTRACT

CERTIFICATE OF DESTRUCTION

Compliance, made simple.

Credit recovery meets audit readiness.

340B pharmacies live by documentation — reverse distribution recovers credit, and audit-ready records keep your program defensible. Sloppy disposal is both lost money and audit risk. This guide covers every stream and the paper trail that keeps you clean.

The good news

We recover credit on returnable Rx and destroy the rest non-retrievable — with Form 222/41 and audit-ready Certificates of Destruction for your 340B records. No contract.

AT A GLANCE

Who regulates what.

Agency	What it covers in your practice
OSHA	Bloodborne Pathogens Standard — sharps handling, containers, and annual staff training.
EPA	RCRA — hazardous pharmaceutical waste identification, segregation, and destruction.
DEA	Controlled substances — non-retrievable destruction and DEA Form 41 documentation.
DOT	Safe shipping of regulated medical and pharmaceutical waste in transit.
State	Health-department and environmental rules that vary by state.

THE STREAMS

Every stream, in depth.

Below is each regulated stream your practice produces — what belongs in it, what does not, the rule behind it, how to dispose of it, and a tip to stay clean.

WASTE STREAM 01

Reverse distribution & returns

Recovers credit and produces the documented return records 340B audits expect.

GOES IN THIS STREAM

- Expired / unused returnable Rx
- Overstock & discontinued inventory
- Manufacturer recalls
- Brand & generic stock

DOES NOT GO HERE

- Opened / adulterated product (destroy only)
- Patient-owned meds
- Sharps

THE RULE · Returnable items are processed for manufacturer credit; non-returnable items are rendered non-retrievable with documentation.

DISPOSE WITH · Pharmaceutical reverse distribution — credit recovered, the rest destroyed.

Tip

Items you'd have thrown away may still be credit-eligible — don't pre-sort them into the trash.

WASTE STREAM 02

Controlled substances

Schedule II–V stock and returns, with full Form 222/41 records.

GOES IN THIS STREAM

- Expired / unused Schedule II–V stock
- Returns of controls (per program)
- Partial & wasted doses

DOES NOT GO HERE

- Non-controlled meds (pharmaceutical kit)
- Sharps

THE RULE · DEA — Form 222 for Schedule II transfers, Form 41 for surrendered controls, and non-retrievable destruction with records.

DISPOSE WITH · Controlled-substance mail-back / reverse distribution, to DEA standards.

Tip

We're a DEA-registered reverse distributor — the credential that makes taking back your controls legal.

WASTE STREAM 03

RCRA-hazardous drugs

P/U-listed and characteristic hazardous drugs — identified and documented.

GOES IN THIS STREAM

- P-listed (warfarin $\geq 0.3\%$, nicotine, epinephrine)
- U-listed drugs
- Characteristic waste (ignitable, toxic)
- Certain chemotherapy agents

DOES NOT GO HERE

- Non-hazardous pharmaceuticals
- Controlled substances (own path)

THE RULE · EPA RCRA — identify P/U-listed and characteristic drugs, segregate, and destroy to EPA standards; know your generator status.

DISPOSE WITH · RCRA-hazardous mail-back kit.

Tip

Nicotine and epinephrine are P-listed — easy to miss and a common citation.

WASTE STREAM 04

Pharmaceutical waste (non-hazardous)

Expired non-controlled, non-hazardous Rx, destroyed with documentation.

GOES IN THIS STREAM

- Expired non-controlled, non-hazardous Rx
- OTC & compounded non-haz product
- Samples

DOES NOT GO HERE

- Controlled substances
- RCRA-hazardous drugs
- Sharps

THE RULE · Do not drain-dispose; destroy with documentation.

DISPOSE WITH · Pharmaceutical waste mail-back kit.

Tip

Segregate hazardous and controlled drugs first — everything else routes here.

WASTE STREAM 05

Sharps

From immunization and point-of-care services.

GOES IN THIS STREAM

- Immunization needles & syringes
- Lancets
- Point-of-care testing sharps

DOES NOT GO HERE

- Non-sharp meds
- Bloody gauze (biohazard)

THE RULE · OSHA — FDA-cleared, puncture-resistant containers; annual training if staff are exposed.

DISPOSE WITH · Sharps mail-back kit.

Tip

Immunizing pharmacies generate more sharps than they expect — size accordingly.

YOUR CHECKLIST

The 340B pharmacy compliance checklist.

- ☐ Reverse distribution set up — returnables credited, the rest destroyed.
- ☐ Controlled substances: Form 222/41 completed, non-retrievable destruction.
- ☐ Audit-ready return and destruction records retained for 340B compliance.
- ☐ RCRA-hazardous drugs (P/U-listed + characteristic) identified and segregated.
- ☐ Non-hazardous pharmaceutical waste destroyed with documentation.
- ☐ Certificates of Destruction and return records retained per your state's rules.

QUESTIONS 340B PHARMACIES ASK

Your 340B questions, answered.

Does reverse distribution help our 340B audit?

Yes — beyond recovering credit, it produces documented return and destruction records that make your program defensible in an audit.

How are controlled substances documented?

With Form 222 for Schedule II transfers, Form 41 for surrendered controls, and a Certificate of Destruction — all audit-ready.

Do you keep records we can pull for audits?

Yes — Certificates of Destruction and return documentation are archived to your account.

Do we need a contract?

No — no contract, no minimums.

THE EASY WAY**Handle it with mail-back.**

Easy Rx Cycle handles pharmacy waste by prepaid mail-back or scheduled pickup for higher volume. Returnable Rx is processed for manufacturer credit; controlled and non-controlled waste is destroyed non-retrievable with a Certificate of Destruction. Form 222/41 handled. No contract.

QUICK REFERENCE · WHICH KIT FOR WHICH STREAM

Waste stream	The right path
Returnable Rx	Reverse distribution (credit recovery)
Controlled substances	Controlled kit / reverse distribution (Form 222/41)
RCRA-hazardous drugs	RCRA-hazardous mail-back kit
Non-hazardous Rx	Pharmaceutical waste kit
Sharps	Sharps mail-back kit

Prefer pickup, or higher volume?

Mail-back suits many 340B sites; contract and covered-entity networks often prefer scheduled pickup with centralized records. Get a quote at easyrxcycle.com/get-a-quote or call 501-904-2929.

WHY 340B PHARMACIES CHOOSE EASY RX CYCLE

- No contract, no minimums — buy as you need
- Flat-rate pricing — no fuel or hidden surcharges
- One vendor for every stream you generate
- DEA-registered, EPA- & OSHA-aligned destruction
- A Certificate of Destruction on every single order

Ready to simplify your 340B pharmacy waste?
