

FREE GUIDE · FOR CANNABIS OPERATORS

The Cannabis Operator's Guide to Compliant Disposal.

State-mandated product destruction, extraction
chemicals, and vape hardware — documented right.

DEA-REGISTERED

EPA-COMPLIANT

NO CONTRACT

CERTIFICATE OF DESTRUCTION

Compliance, made simple.

State rules drive everything.

Licensed cannabis operators must destroy expired, failed, and recalled product under strict state rules that generally require rendering it unusable — often mixed with other waste — with witnessed steps and track-and-trace (e.g., METRC) records. Around the product itself, operations generate hazardous extraction chemicals, vape hardware, and other regulated waste. This guide covers each stream and how we support your state-mandated process. (Cannabis product destruction is governed by your state's cannabis-control program — we help you meet those requirements and handle the regulated waste around them.)

The good news

One partner can handle your hazardous extraction chemicals, vape hardware, and organic/regulated waste — and support your state-mandated product destruction with the documentation your regulator expects. No contract.

AT A GLANCE

Who regulates what.

Agency	What it covers in your practice
OSHA	Bloodborne Pathogens Standard — sharps handling, containers, and annual staff training.
EPA	RCRA — hazardous pharmaceutical waste identification, segregation, and destruction.
DEA	Controlled substances — non-retrievable destruction and DEA Form 41 documentation.
DOT	Safe shipping of regulated medical and pharmaceutical waste in transit.
State	Health-department and environmental rules that vary by state.

THE STREAMS

Every stream, in depth.

Below is each regulated stream your practice produces — what belongs in it, what does not, the rule behind it, how to dispose of it, and a tip to stay clean.

WASTE STREAM 01

State-mandated product destruction

Expired, failed, and recalled product — governed by your state's cannabis-control rules.

GOES IN THIS STREAM

- Expired & failed-testing product
- Recalled & returned product
- Product rendered unusable per state rules

DOES NOT GO HERE

- Hazardous extraction chemicals (own path)
- Vape hardware (own path)

THE RULE · Your state's cannabis-control program — product is typically rendered unusable on-site, witnessed, and logged in track-and-trace before disposal.

DISPOSE WITH · State-compliant destruction we help you coordinate and document.

Tip

Confirm exactly what your state requires — rendering ratios, witnesses, and track-and-trace entries vary widely.

WASTE STREAM 02

Hazardous chemical waste

Extraction and processing chemicals.

GOES IN THIS STREAM

- Spent extraction solvents (ethanol, etc.)
- Processing & lab chemicals
- Characteristic hazardous chemicals

DOES NOT GO HERE

- Non-hazardous waste
- Sharps
- Biohazard / red-bag waste

THE RULE · EPA RCRA and DOT — characterize, segregate by compatibility, manifest, and destroy to EPA standards.

DISPOSE WITH · RCRA-hazardous handling with manifests.

Tip

Characterize your chemicals first — the RCRA listing or characteristic sets the disposal path.

WASTE STREAM 03

Vape hardware & battery waste

Cartridges, pens, and batteries that are e-waste / universal waste.

GOES IN THIS STREAM

- Vape cartridges & pens
- Lithium batteries
- Damaged vape hardware

DOES NOT GO HERE

- Cannabis product (own path)
- General trash

THE RULE · EPA universal-waste and e-waste rules — batteries and electronics must be diverted from the trash and handled correctly.

DISPOSE WITH · Universal-waste / e-waste handling.

Tip

Lithium batteries are a fire and compliance risk in the trash — divert vape hardware to proper handling.

WASTE STREAM 04

Sharps

Sharps, if you run a medical or clinical operation.

GOES IN THIS STREAM

- Injection or clinical sharps
- Lancets
- Any single-use sharps

DOES NOT GO HERE

- Bloody gauze (biohazard)
- Expired meds (pharmaceutical)
- Non-sharp packaging

THE RULE · OSHA Bloodborne Pathogens Standard — FDA-cleared, puncture-resistant containers, no overfilling, annual training.

DISPOSE WITH · Sharps mail-back kit or scheduled pickup.

Tip

Replace containers at the fill line; keep them upright, closable, and out of reach.

YOUR CHECKLIST

The cannabis operator compliance checklist.

- ☐ Product destruction performed per your state's cannabis-control rules and logged in track-and-trace.
- ☐ Extraction and processing chemicals characterized, manifested, and destroyed to EPA standards.
- ☐ Vape hardware and batteries diverted to universal-waste / e-waste handling.
- ☐ Any clinical sharps in FDA-cleared containers.
- ☐ Witnessed steps and documentation retained for your regulator.
- ☐ Records aligned to METRC (or your state's system) and destruction certificates.

QUESTIONS CANNABIS OPERATORS ASK

Your cannabis operator questions, answered.

Can you destroy our cannabis product for us?

Cannabis product destruction is governed by your state's cannabis-control program — product is usually rendered unusable on-site, witnessed, and recorded in track-and-trace. We help you coordinate and document that process, and we handle the regulated waste around it. We'll confirm what your state permits.

How do we dispose of extraction solvents?

As RCRA-hazardous waste — characterized, manifested, and destroyed to EPA standards.

What about vape pens and batteries?

They're universal waste / e-waste — batteries and electronics must be diverted from the trash and handled correctly; we manage that.

Do we need a contract?

No — no contract, no minimums.

THE EASY WAY

Handle it with mail-back.

Easy Rx Cycle handles cannabis operators' hazardous extraction chemicals, vape hardware, and regulated waste — and supports your state-mandated product destruction with the documentation

your regulator expects. No contract.

QUICK REFERENCE · WHICH KIT FOR WHICH STREAM

Waste stream	The right path
Product destruction	State-compliant process we help coordinate & document
Extraction solvents / chemicals	RCRA-hazardous handling (manifested)
Vape hardware / batteries	Universal-waste / e-waste handling
Clinical sharps (if any)	Sharps mail-back kit

Prefer pickup, or higher volume?

Cannabis programs vary by state and license type — let's scope exactly what you need. Get a quote at easyrxcycle.com/get-a-quote or call 501-904-2929.

WHY CANNABIS CULTIVATORS, PROCESSORS & DISPENSARIES CHOOSE EASY RX CYCLE

- No contract, no minimums — buy as you need
- Flat-rate pricing — no fuel or hidden surcharges
- One vendor for every stream you generate
- DEA-registered, EPA- & OSHA-aligned destruction
- A Certificate of Destruction on every single order

Ready to simplify your cannabis operator waste?

Shop mail-back kits with prices, or get a custom quote for pickup and higher volume. No contract, cancel anytime.
