

FREE GUIDE · FOR CORRECTIONAL FACILITIES

The Correctional Facility's Guide to Compliant Disposal.

Infirmery sharps, biohazard, and controls —
secure, documented destruction.

DEA-REGISTERED

EPA-COMPLIANT

NO CONTRACT

CERTIFICATE OF DESTRUCTION

Compliance, made simple.

Security and compliance, together.

Correctional facilities run infirmaries that generate sharps, red-bag biohazard, controlled substances, and expired medications — all under heightened security and chain-of-custody requirements. Diversion risk makes the paper trail and secure handling non-negotiable. This guide covers every stream and the secure handling correctional settings demand.

The good news

One DEA-registered vendor provides secure, documented chain-of-custody destruction for infirmary controls, sharps, and biohazard — with Form 41 and a Certificate of Destruction. No contract.

AT A GLANCE

Who regulates what.

Agency	What it covers in your practice
OSHA	Bloodborne Pathogens Standard — sharps handling, containers, and annual staff training.
EPA	RCRA — hazardous pharmaceutical waste identification, segregation, and destruction.
DEA	Controlled substances — non-retrievable destruction and DEA Form 41 documentation.
DOT	Safe shipping of regulated medical and pharmaceutical waste in transit.
State	Health-department and environmental rules that vary by state.

THE STREAMS

Every stream, in depth.

Below is each regulated stream your practice produces — what belongs in it, what does not, the rule behind it, how to dispose of it, and a tip to stay clean.

WASTE STREAM 01

Controlled substances

Infirmery controlled substances — the stream where secure chain-of-custody matters most.

GOES IN THIS STREAM

- Expired / unused Schedule II–V infirmery stock
- Wasted & partial doses
- Discontinued controlled orders

DOES NOT GO HERE

- Non-controlled meds (pharmaceutical kit)
- Sharps

THE RULE · DEA — render non-retrievable, DEA Form 41 for surrendered controls, witnessed logs; on-site deactivation meets non-retrievable guidance.

DISPOSE WITH · Controlled / medication mail-back kit, or on-site deactivation, to DEA standards.

Tip

On-site deactivation lets you render controls non-retrievable immediately — useful when meds shouldn't leave the building.

WASTE STREAM 02

Sharps

Infirmery injection and procedure sharps.

GOES IN THIS STREAM

- Injection needles & syringes
- Lancets
- Procedure sharps

DOES NOT GO HERE

- Bloody gauze (biohazard)
- Expired meds (pharmaceutical)
- Non-sharp packaging

THE RULE · OSHA Bloodborne Pathogens Standard — FDA-cleared, puncture-resistant containers, no overfilling, annual training.

DISPOSE WITH · Sharps mail-back kit.

Tip

Replace containers at the fill line; keep them upright, closable, and out of reach.

WASTE STREAM 03

Biohazard / regulated medical waste

Infirmery blood- and fluid-contaminated waste.

GOES IN THIS STREAM

- Blood-soaked dressings
- Contaminated PPE
- Wound-care biohazard

DOES NOT GO HERE

- Sharps (sharps kit)
- Lightly soiled everyday items
- Expired meds (pharmaceutical)

THE RULE · OSHA plus your state's medical-waste rules — red bags, labeling, treatment/destruction, retained documentation.

DISPOSE WITH · Biohazard mail-back kit.

Tip

Only visibly blood/OPIM-contaminated items are red-bag waste — check your state's definition.

WASTE STREAM 04

Pharmaceutical waste

Expired non-controlled infirmery medications.

GOES IN THIS STREAM

- Expired non-controlled meds
- Discontinued medications
- Non-controlled returns

DOES NOT GO HERE

- Controlled substances (own path)
- RCRA-hazardous drugs (own kit)
- Sharps

THE RULE · Do not drain-dispose; segregate hazardous and controlled drugs; destroy with documentation.

DISPOSE WITH · Pharmaceutical waste mail-back kit or on-site deactivation.

Tip

Segregate hazardous and controlled drugs first — everything else routes here.

YOUR CHECKLIST

The correctional facility compliance checklist.

☐ Controlled substances secured, logged, and rendered non-retrievable with Form 41 and chain-of-custody.

☐ Every wasted controlled dose witnessed and documented.

- ☐ Infirmary sharps in FDA-cleared containers.
- ☐ Blood-contaminated biohazard red-bagged and destroyed.
- ☐ Expired non-controlled meds destroyed with documentation.
- ☐ Certificates of Destruction and chain-of-custody records retained per your rules.

QUESTIONS CORRECTIONAL FACILITIES ASK

Your correctional facility questions, answered.

How do you ensure secure chain-of-custody?

Controlled substances are tracked and documented from your infirmary through non-retrievable destruction, with Form 41 and chain-of-custody records — built for diversion-sensitive settings.

Can meds be deactivated on-site for added security?

Yes — on-site deactivation renders controlled substances non-retrievable immediately, inside your facility.

How is infirmary biohazard handled?

Red-bagged and destroyed as regulated medical waste, with documentation.

Do we need a contract?

No — no contract, no minimums.

THE EASY WAY

Handle it with mail-back.

Easy Rx Cycle provides correctional facilities secure, documented destruction — on-site deactivation or scheduled pickup for infirmary controls, sharps, and biohazard — with Form 41, chain-of-custody, and Certificates of Destruction. No contract.

QUICK REFERENCE · WHICH KIT FOR WHICH STREAM

Waste stream	The right path
Infirmary controls	Controlled destruction / on-site deactivation (Form 41, chain-of-custody)
Infirmary sharps	Sharps mail-back kit or pickup
Biohazard / RMW	Biohazard mail-back kit or pickup

Waste stream

Pharmaceutical waste kit

Prefer pickup, or higher volume?

Correctional settings usually require secure, scheduled pickup with full chain-of-custody. Let's build it — get a quote at easyrxcycle.com/get-a-quote or call 501-904-2929.

WHY CORRECTIONAL FACILITIES CHOOSE EASY RX CYCLE

- No contract, no minimums — buy as you need
- Flat-rate pricing — no fuel or hidden surcharges
- One vendor for every stream you generate
- DEA-registered, EPA- & OSHA-aligned destruction
- A Certificate of Destruction on every single order

Ready to simplify your correctional facility waste?

Shop mail-back kits with prices, or get a custom quote for pickup and higher volume. No contract, cancel anytime.
