

FREE GUIDE · FOR TRAUMA & CRIME-SCENE REMEDIATION

The Trauma / Crime-Scene Guide to Compliant Disposal.

Biohazard is your whole business — plus found sharps and drugs that need documented destruction.

DEA-REGISTERED

EPA-COMPLIANT

NO CONTRACT

CERTIFICATE OF DESTRUCTION

Compliance, made simple.

Biohazard is the business.

Trauma and crime-scene remediation companies handle biohazard as the entire business — blood, OPIM, and contaminated materials removed from scenes — often in bulk and on no notice. Add found sharps and, sometimes, found medications or controlled substances that require documented destruction, and you need a disposal partner who can keep up. This guide covers every stream.

The good news

One partner can take your bulk biohazard, found sharps, and found medications — including controlled substances that need documented, non-retrievable destruction — with manifests and Certificates of Destruction. No contract.

AT A GLANCE

Who regulates what.

Agency	What it covers in your practice
OSHA	Bloodborne Pathogens Standard — sharps handling, containers, and annual staff training.
EPA	RCRA — hazardous pharmaceutical waste identification, segregation, and destruction.
DEA	Controlled substances — non-retrievable destruction and DEA Form 41 documentation.
DOT	Safe shipping of regulated medical and pharmaceutical waste in transit.
State	Health-department and environmental rules that vary by state.

THE STREAMS

Every stream, in depth.

Below is each regulated stream your practice produces — what belongs in it, what does not, the rule behind it, how to dispose of it, and a tip to stay clean.

WASTE STREAM 01

Biohazard / regulated medical waste

Bulk blood, OPIM, and contaminated materials from scenes.

GOES IN THIS STREAM

- Blood-soaked materials & textiles
- OPIM & contaminated debris
- Contaminated PPE

DOES NOT GO HERE

- Sharps (sharps kit)
- Lightly soiled everyday items
- Expired meds (pharmaceutical)

THE RULE · OSHA plus your state's medical-waste rules — red bags, labeling, treatment/destruction, retained documentation.

DISPOSE WITH · Biohazard mail-back kit or scheduled pickup.

Tip

Only visibly blood/OPIM-contaminated items are red-bag waste — check your state's definition.

WASTE STREAM 02

Sharps

Sharps recovered from scenes.

GOES IN THIS STREAM

- Found needles & syringes
- Broken contaminated glass
- Blades & other sharps

DOES NOT GO HERE

- Bloody gauze (biohazard)
- Expired meds (pharmaceutical)
- Non-sharp packaging

THE RULE · OSHA Bloodborne Pathogens Standard — FDA-cleared, puncture-resistant containers, no overfilling, annual training.

DISPOSE WITH · Sharps mail-back kit or scheduled pickup.

Tip

Replace containers at the fill line; keep them upright, closable, and out of reach.

WASTE STREAM 03

Controlled substances

Medications and controlled substances found on scene.

GOES IN THIS STREAM

- Found controlled substances
- Found non-controlled medications
- Unknown pharmaceuticals (documented)

DOES NOT GO HERE

- Non-controlled meds (pharmaceutical kit)
- Sharps

THE RULE · DEA — render non-retrievable, DEA Form 41 for surrendered controls, witnessed logs.

DISPOSE WITH · Controlled destruction to DEA standards, with documentation.

Tip

Log and witness every wasted controlled dose — the DEA checks the paper trail.

YOUR CHECKLIST

The trauma / crime-scene compliance checklist.

- ☐ Bulk biohazard red-bagged, manifested, and destroyed on your timeline.
- ☐ Found sharps in FDA-cleared containers.
- ☐ Found controlled substances rendered non-retrievable with a documented chain of custody and Form 41.
- ☐ Found non-controlled meds destroyed with documentation.
- ☐ Crews trained on bloodborne pathogens and safe recovery.
- ☐ Manifests and Certificates of Destruction retained for your records and clients.

QUESTIONS REMEDIATION CREWS ASK

Your remediation questions, answered.

Can you handle bulk biohazard on short notice?

Yes — we size service to your job volume and turnaround so a large scene doesn't leave you holding regulated waste.

What do we do with drugs or controlled substances we find on scene?

Document them and route them to compliant destruction — controlled substances are rendered non-retrievable with a chain of custody and a DEA Form 41.

How are found sharps handled?

In FDA-cleared sharps containers, then destroyed and documented.

Do we need a contract?

No — no contract, no minimums.

THE EASY WAY

Handle it with mail-back.

Easy Rx Cycle gives remediation companies bulk biohazard service plus documented destruction of found sharps and medications — including controlled substances — with manifests and Certificates of Destruction. No contract.

QUICK REFERENCE · WHICH KIT FOR WHICH STREAM

Waste stream	The right path
Bulk biohazard	Biohazard pickup (manifested)
Found sharps	Sharps mail-back kit
Found controlled substances	Controlled destruction (Form 41, chain of custody)
Found non-controlled meds	Pharmaceutical waste kit

Prefer pickup, or higher volume?

Bulk and on-call volume usually needs scheduled or on-demand pickup. Let's set it up — get a quote at easyrxcycle.com/get-a-quote or call 501-904-2929.

WHY TRAUMA & CRIME-SCENE REMEDIATION COMPANIES CHOOSE EASY RX CYCLE

- No contract, no minimums — buy as you need
- Flat-rate pricing — no fuel or hidden surcharges
- One vendor for every stream you generate
- DEA-registered, EPA- & OSHA-aligned destruction
- A Certificate of Destruction on every single order

Ready to simplify your remediation company waste?

Shop mail-back kits with prices, or get a custom quote for pickup and higher volume. No contract, cancel anytime.
