

FREE GUIDE · FOR MED SPAS & AESTHETICS

The Med Spa's Guide to Compliant Waste Disposal.

Injection sharps, expired injectables, and blood waste — yes, your med spa generates regulated medical waste.

DEA-REGISTERED

EPA-COMPLIANT

NO CONTRACT

CERTIFICATE OF DESTRUCTION

Compliance, made simple.

A spa setting, clinical-grade waste.

Med spas look like wellness businesses, but they generate the same regulated waste as a clinic — injection sharps, expired injectables like neurotoxins and fillers, and blood-contaminated materials from PRP and microneedling. Treating it like ordinary trash is a real compliance and liability risk. This guide covers every stream and how to handle each compliantly.

The good news

One vendor can take your sharps, expired injectables, and biohazard — by prepaid mail-back kit, with a Certificate of Destruction and no contract. Simple enough for a front-desk team to manage.

AT A GLANCE

Who regulates what.

Agency	What it covers in your practice
OSHA	Bloodborne Pathogens Standard — sharps handling, containers, and annual staff training.
EPA	RCRA — hazardous pharmaceutical waste identification, segregation, and destruction.
DEA	Controlled substances — non-retrievable destruction and DEA Form 41 documentation.
DOT	Safe shipping of regulated medical and pharmaceutical waste in transit.
State	Health-department and environmental rules that vary by state.

THE STREAMS

Every stream, in depth.

Below is each regulated stream your practice produces — what belongs in it, what does not, the rule behind it, how to dispose of it, and a tip to stay clean.

WASTE STREAM 01

Sharps

Your highest-volume regulated stream — every injection and microneedling treatment creates it.

GOES IN THIS STREAM

- Injection needles & syringes
- Microneedling cartridges & tips
- Cannulas & blades
- Lancets

DOES NOT GO HERE

- Bloody gauze (biohazard)
- Expired product (pharmaceutical)
- Empty non-sharp packaging

THE RULE · OSHA Bloodborne Pathogens Standard — FDA-cleared, puncture-resistant containers, no overfilling, annual training.

DISPOSE WITH · Sharps mail-back kit.

Tip

Microneedling cartridges are sharps — they don't belong in the regular trash.

WASTE STREAM 02

Pharmaceutical waste (expired injectables)

Neurotoxins, fillers, and injectable meds expire — and can't be flushed or trashed.

GOES IN THIS STREAM

- Expired neurotoxins (Botox, Dysport, etc.)
- Expired dermal fillers
- Lidocaine & injectable anesthetics
- Kybella & other injectables

DOES NOT GO HERE

- Controlled substances (own kit)
- Sharps
- Non-medical retail product

THE RULE · Do not drain-dispose; destroy expired injectables with documentation.

DISPOSE WITH · Pharmaceutical waste mail-back kit.

Tip

Reconstituted neurotoxin has a short shelf life — expired vials are pharmaceutical waste, not trash.

WASTE STREAM 03

Biohazard / regulated medical waste

PRP and microneedling mean blood — and blood-contaminated materials are red-bag waste.

GOES IN THIS STREAM

- PRP tubes & blood-contaminated items
- Blood-soaked gauze
- Contaminated gloves & PPE

DOES NOT GO HERE

- Sharps (sharps kit)
- Lightly soiled everyday items

THE RULE · OSHA plus your state's medical-waste rules — red bags, labeling, treatment/destruction, documentation.

DISPOSE WITH · Biohazard mail-back kit.

Tip

PRP centrifuge tubes with blood are regulated medical waste — treat them like any clinical blood tube.

WASTE STREAM 04

Controlled substances (if applicable)

Most med spas carry none — but if you stock any Schedule II–V drug, it has its own path.

GOES IN THIS STREAM

- Any expired / unused Schedule II–V stock
- Wasted controlled doses

DOES NOT GO HERE

- Non-controlled injectables (pharmaceutical kit)
- Sharps

THE RULE · DEA — render non-retrievable with a DEA Form 41 and witnessed logs.

DISPOSE WITH · Controlled-substance / medication mail-back kit.

Tip

If you don't stock controlled drugs, you can skip this stream entirely.

YOUR CHECKLIST

The med spa compliance checklist.

- ☐ Injection & microneedling sharps in FDA-cleared containers, replaced at the fill line.
- ☐ Expired neurotoxins and fillers destroyed as pharmaceutical waste, documented.
- ☐ PRP tubes and blood-contaminated items red-bagged as biohazard.
- ☐ Any controlled substances rendered non-retrievable with a Form 41.

- ☐ Staff trained annually on OSHA bloodborne pathogens.
- ☐ Certificates of Destruction retained per your state's rules.

QUESTIONS MED SPAS ASK

Your med spa questions, answered.

How do we dispose of expired Botox or dermal fillers?

As pharmaceutical waste — in a pharmaceutical-waste kit, destroyed with documentation. Don't flush them or throw them in the trash.

Are microneedling cartridges considered sharps?

Yes. Anything that can puncture skin is a sharp and belongs in an FDA-cleared sharps container.

What do we do with PRP or blood tubes?

They're biohazard / regulated medical waste — red-bag them and dispose through a biohazard kit.

Does a med spa really need medical waste disposal?

Yes. Injection and blood waste is regulated the same as at any clinic — a spa setting doesn't change the rules.

Do we need a contract?

No — no contract, no minimums, and auto-ship if you want to save 20%.

THE EASY WAY

Handle it with mail-back.

Easy Rx Cycle ships prepaid mail-back kits sized to a med spa — fill them, seal them, and mail them back. We destroy the contents at our DEA-registered facility and return a Certificate of Destruction. No pickups, no route fees, no contract.

QUICK REFERENCE · WHICH KIT FOR WHICH STREAM

Waste stream	The right path
Injection & microneedling sharps	Sharps mail-back kit
Expired injectables (Botox, fillers)	Pharmaceutical waste kit
PRP / blood waste	Biohazard mail-back kit

Waste stream	The right path
Controlled substances (if any)	Controlled / medication kit
General office trash	Regular waste (not regulated)

Prefer pickup, or higher volume?

Mail-back suits most single-location med spas. Multi-location groups or higher-volume clinics may prefer scheduled pickup — we'll size a program for you. Get a quote at easyrxcycle.com/get-a-quote or call 501-904-2929.

WHY MED SPAS CHOOSE EASY RX CYCLE

- No contract, no minimums — buy as you need
- Flat-rate pricing — no fuel or hidden surcharges
- One vendor for every stream you generate
- DEA-registered, EPA- & OSHA-aligned destruction
- A Certificate of Destruction on every single order

Ready to simplify your med spa waste?

Shop mail-back kits with prices, or get a custom quote for pickup and higher volume. No contract, cancel anytime.
