

FREE GUIDE · FOR MANUFACTURERS & DISTRIBUTORS

The Manufacturer's Guide to Compliant Product Destruction.

Expired, off-spec, recalled, and returned product —
destroyed at scale, documented to the DEA.

DEA-REGISTERED

EPA-COMPLIANT

NO CONTRACT

CERTIFICATE OF DESTRUCTION

Compliance, made simple.

Destruction at scale, documented.

Pharmaceutical manufacturers and distributors need documented, DEA-compliant destruction for expired, off-spec, recalled, and returned product — including controlled substances — at scale, with the chain-of-custody and manifests auditors and the DEA expect. This guide covers every stream and how a DEA-registered destruction partner fits your process.

The good news

As a DEA-registered destruction company we handle registrant-to-registrant controlled destruction, bulk product destruction, and hazardous production waste — witnessed, manifested, and certified. No long-term contract required.

AT A GLANCE

Who regulates what.

Agency	What it covers in your practice
OSHA	Bloodborne Pathogens Standard — sharps handling, containers, and annual staff training.
EPA	RCRA — hazardous pharmaceutical waste identification, segregation, and destruction.
DEA	Controlled substances — non-retrievable destruction and DEA Form 41 documentation.
DOT	Safe shipping of regulated medical and pharmaceutical waste in transit.
State	Health-department and environmental rules that vary by state.

THE STREAMS

Every stream, in depth.

Below is each regulated stream your practice produces — what belongs in it, what does not, the rule behind it, how to dispose of it, and a tip to stay clean.

WASTE STREAM 01

Expired, off-spec & recalled product

Bulk finished product and returned lots that must be destroyed with documentation.

GOES IN THIS STREAM

- Expired & off-spec finished product
- Recalled & returned lots
- Non-controlled bulk pharmaceuticals

DOES NOT GO HERE

- Controlled product (own path)
- RCRA-hazardous drugs (own path)

THE RULE · Documented destruction with chain of custody and Certificates of Destruction; segregate controlled and hazardous first.

DISPOSE WITH · Witnessed bulk destruction with manifests.

Tip

Segregate controlled and RCRA-hazardous product first — the rest is bulk pharmaceutical destruction.

WASTE STREAM 02

Controlled substances

Controlled substances, destroyed registrant-to-registrant.

GOES IN THIS STREAM

- Expired / off-spec controlled product
- Returned controlled lots
- Surrendered controlled stock

DOES NOT GO HERE

- Non-controlled meds (pharmaceutical kit)
- Sharps

THE RULE · DEA — render non-retrievable, DEA Form 41 for surrendered controls, witnessed logs.

DISPOSE WITH · Controlled destruction to DEA standards, with documentation.

Tip

Log and witness every wasted controlled dose — the DEA checks the paper trail.

WASTE STREAM 03

Hazardous chemical waste

Hazardous production, QC, and R&D; chemical waste.

GOES IN THIS STREAM

- Production & QC solvents
- Listed & characteristic hazardous chemicals
- R&D chemical waste

DOES NOT GO HERE

- Non-hazardous waste
- Sharps
- Biohazard / red-bag waste

THE RULE · EPA RCRA and DOT — characterize, segregate by compatibility, manifest, and destroy to EPA standards.

DISPOSE WITH · RCRA-hazardous handling with manifests.

Tip

Characterize your chemicals first — the RCRA listing or characteristic sets the disposal path.

YOUR CHECKLIST

The manufacturer / distributor compliance checklist.

- ☐ Controlled product destroyed registrant-to-registrant, rendered non-retrievable, with Form 41.
- ☐ Bulk expired/off-spec/recalled product destroyed with chain of custody.
- ☐ Hazardous production and QC waste characterized and manifested.
- ☐ Every destruction event witnessed and documented.
- ☐ Manifests and Certificates of Destruction retained for DEA and internal audits.
- ☐ A partner able to scale to recall and batch-destruction events.

QUESTIONS MANUFACTURERS ASK

Your manufacturer questions, answered.

Can you accept controlled substances as a registrant?

Yes — we're DEA-registered, so controlled product is destroyed registrant-to-registrant, rendered non-retrievable, and documented with a Form 41.

How do you handle recalls or large batch destructions?

With scheduled, witnessed destruction and full chain-of-custody documentation sized to the event.

Do you handle hazardous production waste too?

Yes — production, QC, and R&D; hazardous chemicals are characterized, manifested, and destroyed to EPA standards.

Do we need a long-term contract?

No — we can work per-event or ongoing, without locking you into a long-term contract.

THE EASY WAY

Handle it with mail-back.

Easy Rx Cycle gives manufacturers and distributors DEA-registered, witnessed destruction for controlled and non-controlled product plus hazardous production waste — chain of custody, manifests, and Certificates of Destruction on every event.

QUICK REFERENCE · WHICH KIT FOR WHICH STREAM

Waste stream	The right path
Expired / off-spec / recalled product	Witnessed bulk destruction (manifested)
Controlled product	Registrant-to-registrant destruction (Form 41)
Production / QC hazardous waste	RCRA-hazardous handling (manifested)

Prefer pickup, or higher volume?

Manufacturer-scale destruction is always scheduled and witnessed with full documentation. Let's scope your program — get a quote at easyrxcycle.com/get-a-quote or call 501-904-2929.

WHY MANUFACTURERS & DISTRIBUTORS CHOOSE EASY RX CYCLE

- No contract, no minimums — buy as you need
- Flat-rate pricing — no fuel or hidden surcharges
- One vendor for every stream you generate
- DEA-registered, EPA- & OSHA-aligned destruction
- A Certificate of Destruction on every single order

Ready to simplify your manufacturer waste?

Shop mail-back kits with prices, or get a custom quote for pickup and higher volume. No contract, cancel anytime.
