

FREE GUIDE · FOR RETAIL & WALK-IN CLINICS

The Retail / Walk-In Clinic's Guide to Compliant Disposal.

Vaccine and injection volume drives it — sharps
and expired vaccines, handled across every site.

DEA-REGISTERED

EPA-COMPLIANT

NO CONTRACT

CERTIFICATE OF DESTRUCTION

Compliance, made simple.

Vaccines drive the volume.

Retail and walk-in clinics run high vaccine and injection volume, so sharps and expired vaccines and medications are your main regulated streams — and if you operate multiple locations, you need a program that's consistent across every site. This guide covers every stream and how to standardize it.

The good news

One vendor can standardize sharps and pharmaceutical disposal across all your sites — prepaid mail-back kits, consistent documentation, Certificates of Destruction, no contract.

AT A GLANCE

Who regulates what.

Agency	What it covers in your practice
OSHA	Bloodborne Pathogens Standard — sharps handling, containers, and annual staff training.
EPA	RCRA — hazardous pharmaceutical waste identification, segregation, and destruction.
DEA	Controlled substances — non-retrievable destruction and DEA Form 41 documentation.
DOT	Safe shipping of regulated medical and pharmaceutical waste in transit.
State	Health-department and environmental rules that vary by state.

THE STREAMS

Every stream, in depth.

Below is each regulated stream your practice produces — what belongs in it, what does not, the rule behind it, how to dispose of it, and a tip to stay clean.

WASTE STREAM 01

Sharps

Vaccine and injection sharps — your highest-volume stream.

GOES IN THIS STREAM

- Vaccine needles & syringes
- Injection sharps
- Lancets & test sharps

DOES NOT GO HERE

- Bloody gauze (biohazard)
- Expired meds (pharmaceutical)
- Non-sharp packaging

THE RULE · OSHA Bloodborne Pathogens Standard — FDA-cleared, puncture-resistant containers, no overfilling, annual training.

DISPOSE WITH · Sharps mail-back kit.

Tip

Replace containers at the fill line; keep them upright, closable, and out of reach.

WASTE STREAM 02

Pharmaceutical waste

Expired vaccines and medications.

GOES IN THIS STREAM

- Expired vaccines
- Expired non-controlled meds
- Samples

DOES NOT GO HERE

- Controlled substances (own kit)
- RCRA-hazardous drugs (own kit)
- Sharps

THE RULE · Do not drain-dispose; segregate hazardous and controlled drugs; destroy with documentation.

DISPOSE WITH · Pharmaceutical waste mail-back kit.

Tip

Segregate hazardous and controlled drugs first — everything else routes here.

WASTE STREAM 03

Biohazard / regulated medical waste

Point-of-care testing and minor procedure waste.

GOES IN THIS STREAM

- Blood-contaminated test materials
- Contaminated PPE
- Minor procedure biohazard

DOES NOT GO HERE

- Sharps (sharps kit)
- Lightly soiled everyday items
- Expired meds (pharmaceutical)

THE RULE · OSHA plus your state's medical-waste rules — red bags, labeling, treatment/destruction, retained documentation.

DISPOSE WITH · Biohazard mail-back kit.

Tip

Only visibly blood/OPIM-contaminated items are red-bag waste — check your state's definition.

YOUR CHECKLIST

The retail / walk-in clinic compliance checklist.

- ☐ Vaccine and injection sharps in FDA-cleared containers, sized to per-site volume.
- ☐ Expired vaccines and meds destroyed as pharmaceutical waste with documentation.
- ☐ Point-of-care testing waste handled per state rules.
- ☐ A consistent program and paperwork across every location.
- ☐ Staff trained annually on OSHA bloodborne pathogens.
- ☐ Certificates of Destruction retained per site and state rules.

QUESTIONS RETAIL CLINICS ASK

Your retail clinic questions, answered.

How do we handle vaccine sharps volume across busy clinics?

We size sharps kits to each site's volume and set a replacement cadence so containers never overfill during a rush.

What do we do with expired vaccines?

Destroyed as pharmaceutical waste with documentation — never trashed or drained.

Can you standardize disposal across all our locations?

Yes — one program, one set of kits, consistent documentation across every site, with no contract.

Do we need a contract?

No — no contract, no minimums.

THE EASY WAY

Handle it with mail-back.

Easy Rx Cycle ships prepaid mail-back kits sized per site — vaccine and injection sharps, expired vaccines and meds — destroyed at our DEA-registered facility with consistent Certificates of Destruction across all your clinics. No contract.

QUICK REFERENCE · WHICH KIT FOR WHICH STREAM

Waste stream	The right path
Vaccine & injection sharps	Sharps mail-back kit
Expired vaccines / meds	Pharmaceutical waste kit
Point-of-care testing waste	Biohazard mail-back kit

Prefer pickup, or higher volume?

Multi-site operators sometimes prefer scheduled pickup with centralized reporting — we'll build it. Get a quote at easyrxcycle.com/get-a-quote or call 501-904-2929.

WHY RETAIL & WALK-IN CLINICS CHOOSE EASY RX CYCLE

- No contract, no minimums — buy as you need
- Flat-rate pricing — no fuel or hidden surcharges
- One vendor for every stream you generate
- DEA-registered, EPA- & OSHA-aligned destruction
- A Certificate of Destruction on every single order

Ready to simplify your retail clinic waste?

Shop mail-back kits with prices, or get a custom quote for pickup and higher volume. No contract, cancel anytime.
