

FREE GUIDE · FOR TRT CLINICS

The TRT Clinic's Guide to Compliant Waste Disposal.

Testosterone is a controlled substance —
here's how to handle it, and every other stream.

DEA-REGISTERED

EPA-COMPLIANT

NO CONTRACT

CERTIFICATE OF DESTRUCTION

Compliance, made simple.

Testosterone is Schedule III.

TRT clinics revolve around testosterone — a Schedule III controlled substance — so the DEA is in the picture from day one. Add injection sharps, expired hormones, and lab blood work, and you have several regulated streams. Get the controlled-substance piece wrong and it's a serious problem. This guide covers all of it.

The good news

As a DEA-registered destruction company we handle wasted and expired testosterone non-retrievable with a Form 41 — plus your sharps and blood waste — by prepaid mail-back kit, no contract.

AT A GLANCE

Who regulates what.

Agency	What it covers in your practice
OSHA	Bloodborne Pathogens Standard — sharps handling, containers, and annual staff training.
EPA	RCRA — hazardous pharmaceutical waste identification, segregation, and destruction.
DEA	Controlled substances — non-retrievable destruction and DEA Form 41 documentation.
DOT	Safe shipping of regulated medical and pharmaceutical waste in transit.
State	Health-department and environmental rules that vary by state.

THE STREAMS

Every stream, in depth.

Below is each regulated stream your practice produces — what belongs in it, what does not, the rule behind it, how to dispose of it, and a tip to stay clean.

WASTE STREAM 01

Controlled substances

Testosterone (Schedule III) and any other controlled hormones — the stream that puts you on the DEA's radar.

GOES IN THIS STREAM

- Expired / unused testosterone (Sch III)
- Wasted or partial injection doses
- Other controlled hormones

DOES NOT GO HERE

- Non-controlled meds (pharmaceutical kit)
- Sharps

THE RULE · DEA — render non-retrievable, complete a DEA Form 41 for surrendered controls, and keep witnessed waste logs.

DISPOSE WITH · Controlled-substance / medication mail-back kit, to DEA standards.

Tip

Log and witness every wasted controlled dose — the DEA checks the paper trail.

WASTE STREAM 02

Sharps

Intramuscular injection needles and blood-draw sharps.

GOES IN THIS STREAM

- IM injection needles & syringes
- Blood-draw sharps
- Lancets

DOES NOT GO HERE

- Bloody gauze (biohazard)
- Expired meds (pharmaceutical)
- Non-sharp packaging

THE RULE · OSHA Bloodborne Pathogens Standard — FDA-cleared, puncture-resistant containers, no overfilling, annual training.

DISPOSE WITH · Sharps mail-back kit.

Tip

Replace containers at the fill line and keep them upright, closable, and out of reach.

WASTE STREAM 03

Pharmaceutical waste

Expired non-controlled hormones, ancillaries, and supplies.

GOES IN THIS STREAM

- Expired non-controlled hormones
- hCG, anastrozole & ancillaries
- Samples

DOES NOT GO HERE

- Controlled substances (own kit)
- RCRA-hazardous drugs (own kit)
- Sharps

THE RULE · Do not drain-dispose; segregate hazardous drugs; destroy with documentation.

DISPOSE WITH · Pharmaceutical waste mail-back kit.

Tip

Keep any hazardous or controlled drugs separate — they each have their own path.

WASTE STREAM 04

Biohazard / regulated medical waste

Blood-draw and injection-site waste.

GOES IN THIS STREAM

- Blood-soaked gauze
- Contaminated PPE
- Blood tubes / lab waste

DOES NOT GO HERE

- Sharps (sharps kit)
- Lightly soiled everyday items
- Expired meds (pharmaceutical)

THE RULE · OSHA plus your state's medical-waste rules — red bags, labeling, treatment/destruction, and retained documentation.

DISPOSE WITH · Biohazard mail-back kit.

Tip

Only visibly blood/OPIM-contaminated items are red-bag waste — over-classifying wastes money.

YOUR CHECKLIST

The TRT clinic compliance checklist.

- ☐ Testosterone and controlled hormones logged, rendered non-retrievable, with a DEA Form 41.
- ☐ Every wasted injection dose witnessed and documented.
- ☐ Injection sharps in FDA-cleared containers, replaced at the fill line.

- ☐ Expired non-controlled hormones segregated and destroyed with documentation.
- ☐ Staff trained annually on OSHA bloodborne pathogens.
- ☐ Certificates of Destruction retained per your state's rules.

QUESTIONS TRT CLINICS ASK

Your TRT questions, answered.

Is testosterone a controlled substance?

Yes — testosterone and other anabolic steroids are Schedule III. Expired or wasted stock must be destroyed non-retrievable with a DEA Form 41.

How do we dispose of wasted or expired testosterone?

Through a DEA-compliant, non-retrievable method with a Form 41 and witnessed waste logs — never the trash or a drain.

What about injection sharps?

IM needles and syringes go in an FDA-cleared sharps container and a sharps mail-back kit.

Do we need to log wasted doses?

Yes — witnessed waste logs plus a Certificate of Destruction keep your controlled records audit-ready.

Do we need a contract?

No — no contract, no minimums.

THE EASY WAY

Handle it with mail-back.

Easy Rx Cycle ships prepaid mail-back kits sized to a TRT clinic — fill, seal, and mail them back. We destroy your controlled and non-controlled waste non-retrievable at our DEA-registered facility, with Form 41 handled, and return a Certificate of Destruction. No contract.

QUICK REFERENCE · WHICH KIT FOR WHICH STREAM

Waste stream	The right path
Testosterone / controlled hormones	Controlled / medication kit (Sch III, Form 41)
Injection sharps	Sharps mail-back kit

Waste stream	The right path
Expired non-controlled hormones	Pharmaceutical waste kit
Blood / lab waste	Biohazard mail-back kit

Prefer pickup, or higher volume?

Mail-back suits most TRT clinics. Multi-location or higher volume? We'll size a custom program — get a quote at easyrxcycle.com/get-a-quote or call 501-904-2929.

WHY TRT CLINICS CHOOSE EASY RX CYCLE

- No contract, no minimums — buy as you need
- Flat-rate pricing — no fuel or hidden surcharges
- One vendor for every stream you generate
- DEA-registered, EPA- & OSHA-aligned destruction
- A Certificate of Destruction on every single order

Ready to simplify your TRT clinic waste?

Shop mail-back kits with prices, or get a custom quote for pickup and higher volume. No contract, cancel anytime.
