

FREE GUIDE · FOR WEIGHT-LOSS & GLP-1 CLINICS

The Weight-Loss Clinic's Guide to Compliant Disposal.

GLP-1 pen needles, expired semaglutide, and more —
every regulated stream, handled right.

DEA-REGISTERED

EPA-COMPLIANT

NO CONTRACT

CERTIFICATE OF DESTRUCTION

Compliance, made simple.

A firehose of pen needles — and more.

Weight-loss and GLP-1 clinics generate a surprising volume of injection sharps — pen needles from semaglutide and tirzepatide — plus expired or compounded product and, in some clinics, controlled appetite suppressants like phentermine (Schedule IV). Each is regulated differently. This guide covers every stream.

The good news

One vendor can take your pen-needle sharps, expired GLP-1 product, and any controlled appetite suppressants — by prepaid mail-back kit, with a Certificate of Destruction and no contract.

AT A GLANCE

Who regulates what.

Agency	What it covers in your practice
OSHA	Bloodborne Pathogens Standard — sharps handling, containers, and annual staff training.
EPA	RCRA — hazardous pharmaceutical waste identification, segregation, and destruction.
DEA	Controlled substances — non-retrievable destruction and DEA Form 41 documentation.
DOT	Safe shipping of regulated medical and pharmaceutical waste in transit.
State	Health-department and environmental rules that vary by state.

THE STREAMS

Every stream, in depth.

Below is each regulated stream your practice produces — what belongs in it, what does not, the rule behind it, how to dispose of it, and a tip to stay clean.

WASTE STREAM 01

Sharps

Your highest-volume stream — GLP-1 pen needles and injection sharps add up fast.

GOES IN THIS STREAM

- GLP-1 pen needles & syringes
- Injection needles
- Lancets

DOES NOT GO HERE

- Bloody gauze (biohazard)
- Expired meds (pharmaceutical)
- Non-sharp packaging

THE RULE · OSHA Bloodborne Pathogens Standard — FDA-cleared, puncture-resistant containers, no overfilling, annual training.

DISPOSE WITH · Sharps mail-back kit.

Tip

Replace containers at the fill line and keep them upright, closable, and out of reach.

WASTE STREAM 02

Pharmaceutical waste

Expired, unused, or returned GLP-1 and weight-loss medications.

GOES IN THIS STREAM

- Expired semaglutide / tirzepatide
- Compounded GLP-1 product
- Non-controlled appetite meds & samples

DOES NOT GO HERE

- Controlled substances (own kit)
- RCRA-hazardous drugs (own kit)
- Sharps

THE RULE · Do not drain-dispose; segregate hazardous drugs; destroy with documentation.

DISPOSE WITH · Pharmaceutical waste mail-back kit.

Tip

Keep any hazardous or controlled drugs separate — they each have their own path.

WASTE STREAM 03

Controlled substances

If you prescribe controlled appetite suppressants like phentermine (Schedule IV).

GOES IN THIS STREAM

- Expired / unused phentermine (Sch IV)
- Other controlled appetite meds
- Wasted or partial doses

DOES NOT GO HERE

- Non-controlled meds (pharmaceutical kit)
- Sharps

THE RULE · DEA — render non-retrievable, complete a DEA Form 41 for surrendered controls, and keep witnessed waste logs.

DISPOSE WITH · Controlled-substance / medication mail-back kit, to DEA standards.

Tip

Log and witness every wasted controlled dose — the DEA checks the paper trail.

WASTE STREAM 04

Biohazard / regulated medical waste

Injection-site and any lab blood waste.

GOES IN THIS STREAM

- Blood-soaked gauze
- Contaminated PPE
- Blood tubes (if you draw labs)

DOES NOT GO HERE

- Sharps (sharps kit)
- Lightly soiled everyday items
- Expired meds (pharmaceutical)

THE RULE · OSHA plus your state's medical-waste rules — red bags, labeling, treatment/destruction, and retained documentation.

DISPOSE WITH · Biohazard mail-back kit.

Tip

Only visibly blood/OPIM-contaminated items are red-bag waste — over-classifying wastes money.

YOUR CHECKLIST

The weight-loss clinic compliance checklist.

☐ GLP-1 pen needles and injection sharps in FDA-cleared containers, replaced often (high volume).

☐ Expired semaglutide/tirzepatide and compounded product destroyed with documentation.

- ☐ Controlled appetite suppressants (phentermine, Sch IV) rendered non-retrievable with a Form 41.
- ☐ Blood/lab waste red-bagged as biohazard.
- ☐ Staff trained annually on OSHA bloodborne pathogens.
- ☐ Certificates of Destruction retained per your state's rules.

QUESTIONS WEIGHT-LOSS CLINICS ASK

Your weight-loss clinic questions, answered.

How do we dispose of GLP-1 pen needles?

They're sharps — FDA-cleared container and a sharps mail-back kit. High patient volume means you'll fill them faster than you expect.

What do we do with expired semaglutide or tirzepatide?

As pharmaceutical waste — destroyed with documentation, not flushed or trashed. Compounded product is handled the same way.

Is phentermine controlled?

Yes — phentermine is Schedule IV. Expired or wasted stock must be destroyed non-retrievable with a Form 41.

Do we need medical waste disposal at all?

Yes — injection sharps and any blood waste are regulated exactly like a clinic's.

Do we need a contract?

No — no contract, no minimums; auto-ship if you want to save 20%.

THE EASY WAY

Handle it with mail-back.

Easy Rx Cycle ships prepaid mail-back kits sized to a weight-loss clinic — fill, seal, and mail them back. We destroy your sharps, expired product, and any controlled meds at our DEA-registered facility and return a Certificate of Destruction. No contract.

QUICK REFERENCE · WHICH KIT FOR WHICH STREAM

Waste stream	The right path
GLP-1 pen needles / sharps	Sharps mail-back kit

Waste stream	The right path
Expired semaglutide / compounded	Pharmaceutical waste kit
Phentermine (controlled)	Controlled / medication kit (Sch IV)
Blood / lab waste	Biohazard mail-back kit

Prefer pickup, or higher volume?

High patient volume can outgrow mail-back — we'll size scheduled pickup if you need it. Get a quote at easyrxcycle.com/get-a-quote or call 501-904-2929.

WHY WEIGHT-LOSS CLINICS CHOOSE EASY RX CYCLE

- No contract, no minimums — buy as you need
- Flat-rate pricing — no fuel or hidden surcharges
- One vendor for every stream you generate
- DEA-registered, EPA- & OSHA-aligned destruction
- A Certificate of Destruction on every single order

Ready to simplify your weight-loss clinic waste?

Shop mail-back kits with prices, or get a custom quote for pickup and higher volume. No contract, cancel anytime.
