

Medical Waste Compliance Checklist

A practical, by-stream checklist to keep your healthcare facility audit-ready. Review with your compliance officer; requirements vary by state.

Sharps

- ☐ Sharps collected in FDA-cleared, puncture-resistant containers at point of use
- ☐ Containers replaced at the fill line (never overfilled) and kept upright
- ☐ A compliant disposal pathway in place (mail-back kit or pickup), documented

Regulated medical / biohazard waste (RMW)

- ☐ Red-bag waste segregated from regular trash and sharps
- ☐ Leak-resistant, labeled containers used; storage area secured
- ☐ Treatment / destruction documented and retained

Pharmaceutical waste (non-hazardous)

- ☐ Non-controlled, non-hazardous meds segregated from RCRA-hazardous drugs
- ☐ Expired / unused stock retired on a routine schedule
- ☐ Destruction documented with a Certificate of Destruction

Controlled substances (DEA)

- ☐ Schedule II–V waste secured with limited, logged access
- ☐ Rendered non-retrievable through a DEA-compliant method
- ☐ DEA Form 41 / reverse-distribution paperwork completed and retained
- ☐ Certificate of Destruction on file for every disposal

RCRA-hazardous pharmaceutical waste (EPA)

- ☐ P-listed, U-listed, and characteristic hazardous drugs identified and segregated
- ☐ Stored in DOT / EPA-compliant containers; generator status known
- ☐ Destroyed to EPA standards with documentation

Trace chemotherapy (USP 800)

- ☐ Trace (RCRA-empty) chemo waste segregated into yellow containers
- ☐ Bulk / unused hazardous drugs routed to hazardous-waste disposal, not trace
- ☐ Handling aligned with USP 800; PPE and spill procedures in place

Training & documentation

- ☐ Staff trained on segregation, OSHA bloodborne pathogens, and DOT (as applicable)
- ☐ Certificates of Destruction and manifests retained per state retention rules
- ☐ A single accountable vendor covers every waste stream you generate

Need one partner for all of it? Easy Rx Cycle handles every stream above — mail-back or pickup, with a Certificate of Destruction every time. Call 501-904-2929 or visit easyrxcycle.com.
